IAEA Programs Sponsored Internships for 2022

Department of the Director General’s Office for Coordination

**Video and Multimedia**
University degree in Journalism/Film/Multimedia or related field.

**Department of Management Recruitment and Talent Outreach**
University degree in communication, English, marketing, business administration, human resources management or relevant field.

**IT Innovation**
Apply by February 2, 2022
University degree in computer science, engineering, design or behavioural science.

Department of Nuclear Sciences and Applications

**Mass Rearing of Fruit Flies**
University degree in biology, agronomy, environmental science or a related field.

**Banana Fusarium Wilt Single-Cell Mutagenesis**
University degree in biological/natural sciences or related field.

Department of Nuclear Energy

**Energy System Modelling and Analysis**
Apply by February 14, 2022
University degree in climate/environment sciences, economics, modelling, programming, or a related field.

**Non-electric Applications of Nuclear Power**
University degree in engineering, physics, mathematics.

**Machine Learning for the International Nuclear Information System Recordings**
Apply by February 14, 2022
University degree in software engineering, management information systems or a related field.

**Net Zero Case Study**
University degree in energy/electrical engineering/powers systems, energy system modelling and simulation, energy economics, or a related field.

**Small Modular Reactor Technology Development**
University degree in engineering (nuclear, mechanical or electrical) or physics.

Department of Nuclear Safety and Security

**Building Awareness for Radiation Protection of Patients**
University Degree in physics, medical physics, or a relevant field.

Department of Technical Cooperation

**TCLAC, Division of Latin America and the Caribbean**
University degree in management, social sciences, science and technology, or international relations.

**Quality Assurance**
University degree in management, social sciences, science and technology, or international relations.

Housed at Argonne National Laboratory, IAEA Programs provides sponsorship through the Department of State’s contract to several internships each year in the areas of peaceful uses of nuclear energy and technology (non-Safeguards departments) of the IAEA. These internships are one year in length and eligibility is limited to US citizens.

IAEA Programs at Argonne is committed to gender equity and promoting the professional representation of women at the Agency. Applications from qualified U.S. women and minorities are encouraged.
